Dear Peter,

Thank you for taking the time to write seeking my position on important matters at this election.

I am very pleased you support the Sunshine Coast rail duplication and my position on the proposed Sekisui development at Yaroomba – thank you for your kind words!

On the other point you raised, I do not support the degradation of high value conservation areas for the purposes of mining. I believe it is all about a balance of protecting and preserving our environment, while facilitating investment and growth in the mining industry that is vital to the Queensland economy.

I would be very eager to hear any suggestions you have on this issue.

Yours sincerely,

Fiona Simpson

Hon Fiona Simpson MP
